London, UK | 07799 652496 | sridharansivakamiensselvan@gmail.com | LinkedIn

EDUCATION

Northumbria University, London

London, UK

MSc Cybersecurity Technology

Coimbatore Institute of Management and Technology

MBA Business Analytics

WORK EXPERIENCE

IdeaEdu Technologies Pvt Ltd — Chennai, India

June 2024 – January 2025

Network Administrator

- **Generated** reports on **Excel** and **dashboards** to conduct **trend analysis** on **security events**, helping teams clearly understand risks and take timely action.
- **Collaborated** closely with **IT teams** and management to **investigate incidents**, analyze anomalies, and implement practical **security improvements**.
- **Configured** **firewalls**, **VLANs**, and **access control** policies, strengthening **infrastructure security** and ensuring smoother day-to-day operations.
- **Took ownership** of improving **monitoring processes**, contributing to a more reliable and resilient security environment.
- **Maintained** clear, **audit-ready documentation**, making it easier for stakeholders to track **compliance** and security posture.

IdeaEdu Technologies Pvt Ltd — Chennai, India

June 2023 – June 2024

Junior Business Analyst

- **Analyzed** **business and system data**, creating **dashboards** and summary reports that supported better **decision-making** and improved efficiency by **15%**.
- **Worked** with **cross-functional teams** to gather **requirements** and ensure systems were implemented securely and effectively.
- **Evaluated** processes by identifying **gaps and inefficiencies**, recommending improvements that streamlined workflows.
- **Produced** structured documentation (**BRD, FRD, SRS**), helping teams stay aligned and audit-ready.
- **Supported** **testing and change implementation**, ensuring smooth rollouts with minimal disruption.

PROJECT EXPERIENCE

Enterprise Network Design (Cisco Packet Tracer)

- **Designed** and implemented a secure **network architecture**, focusing on both performance and **security best practices**.
- **Conducted** **security analysis** to identify **vulnerabilities**, improving **compliance** and **endpoint security** by **25%**.

Footfall Prediction System (IoT and Machine Learning)

- Developed a real-time monitoring system that provided actionable insights for operational planning.
- Used data analytics to support smarter decision-making and improve efficiency.

LEADERSHIP EXPERIENCE

- Partnered with team members and stakeholders to present insights, share findings, and support informed decision-making.
- Took initiative in improving reporting and documentation processes across projects.
- Suggested data-driven improvements based on observations, contributing to better performance and operational outcomes.

TECHNICAL SKILLS

- **Security Operations:** Access Control, Incident Investigation, Security Monitoring, Risk Assessment
- **Data & Reporting:** Excel, Dashboards, Data Analysis, Reporting & Presentations
- **Infrastructure:** Network Security, Firewalls, VLANs
- **Core Skills:** Stakeholder Communication, Problem Solving, Process Improvement
